Subject: FW: NDEP Water Quality Bryant Creek

Dear Mr. Brown:

Going thru some historical emails/ files and getting caught up. This email from NDEP sharing of information appears to be data relevant to the RIFS.

I am not sure if I've sent this already...apologies if you already have it.

Please ensure that ARC shall include this information in the Sitewide database, site characterization and RIFS for surface water.

The location near the site (C19), and along Bryant Creek (CAR03Bryant-1, BCU) are relatively close to RI surface water sample stations.

Those at River Ranch (C20), and along the EFCR (NDOWAB, C17, C21, and NDOWAO) also appear to be near some of the RI sampling locations.

If you have any questions feel free to connect me at (415) 947-4183

Best Regards,

Lynda Deschambault

Hi Lynda-

Courtesy of NDEP Water Quality program is water quality data (both recent and historic) and sample station location information for Bryant Creek and streams near Leviathan. Please let me know if you have any questions.

Sincerely,

Dave Friedman
